

STEFANO COSTI

SOFTWARE DEVELOPER

PROFILE

I am a software developer with 6 years of experience, possessing design and problem-solving skills. I enjoy studying new technologies and sharing knowledge within a team. I am a calm and reflective individual when faced with challenges. I have a personal dedication to the in-depth study of programming languages and best practices for writing clean code, which I consider a true passion. I am always seeking new challenges and opportunities to improve my skills.

SKILLS

I have strong skills with the .NET framework, which I have applied in various contexts, from web development to desktop applications. I have experience as a FrontEnd Developer with the Angular framework. I have worked with relational databases such as Sql Server and Oracle. I contributed to a project for the development of MES (Manufacturing Execution System) software for the ceramics industry. I also had the opportunity to gain experience in the installation and testing of new features at the client's site. I have a solid understanding of major industrial automation protocols and have written several drivers for device interfacing. I have always worked with the Scrum methodology, particularly using Azure DevOps tools. My English language proficiency is at level B2.
